

Directions For Building My Snowman

First, Change the background to blue and draw three white with white on the inside kind of circles. Draw the circles in this order. **Top:** is Large **Middle:** is Medium **Bottom:** is Small (I now this nay sound weird ,but it will look cool at the end of this).

Second, Draw the brown arms to the ground and brown sticks as legs that stick up in the air.

Third, Draw the face of a snowman, a black top hat, and the three black dots down the snowman. (One on the middle body part and two on the top body part).

Fourth, Using the stamps draw 36 stars or snowflakes of many shapes.

Fifth, Draw a scarf of many different colors and then draw the ground white like the snow.

Finally, Save the snowman to your computer and show your friends and challenge them to draw this **Crazy Snowman!**
